SUMMARY

Senior Frontend Engineer with **6+ years of experience** building scalable web and mobile applications using **React, React Native, and Next.js**. Proven track record in delivering high-performance applications across **fintech, analytics, and real-time platforms**.

Experienced in owning features end-to-end, optimizing performance, and collaborating cross-functionally with product, backend, and design teams. Strong focus on **clean architecture, reusable components, and user-centric UI/UX**.

EXPERIENCE

Senior Frontend Developer

PT. Namea Kreasi Teknologi - Jakarta, Indonesia

August 2023 - Present

Tech Stack: Next.js, React Native, TypeScript, TanStack Query, Redux, Axios, Zustand, ShadCN UI, Tailwind CSS, REST API

- Led frontend development for high-traffic projects, including live sports platforms, analytics dashboards, video call systems, and social-content web apps.
- Built and optimized reusable web and mobile components, improving page load performance by up to 60%.
- Implemented modular architecture and scalable UI patterns across multiple projects.
- Conducted code reviews and mentored junior engineers to improve team efficiency and delivery consistency.
- Collaborated with design and backend teams to maintain consistent UX and performance standards.

Mobile Developer

PT. Elektronik Distribusi Otomatisasi Terkemuka (eDOT) - Bandung, Indonesia

July 2022 - August 2023

Tech Stack: React Native, TypeScript, Redux, GraphQL, Axios

- Contributed to the development of eDOT SuperApp, a multi-service platform combining eChat (messaging), eShop (social-commerce), and various digital services.
- Enabled both business and personal users to create and manage stores within the eShop module, supporting a growing in-app seller ecosystem.
- Implemented Single Sign-On (SSO) authentication and centralized account management for seamless access across services.
- Integrated social networking features including posting, following, and media sharing through third-party APIs.
- Optimized Redux and GraphQL query handling, reducing average load time by 30% and improving responsiveness.
- Increased app stability by 35% through structured error handling and runtime monitoring.

Mobile Developer

PT. Una Darma Indonesia - Jakarta, Indonesia

November 2021 - July 2022

Tech Stack: Ionic, Angular, REST API

- Built and deployed crowdfunding and peer-to-peer insurance platforms for SMEs, including *Asurisan Dewata* (localized for Bali) and *Asurisan Pro* (serving 4,000+ SMEs nationwide).
- Integrated Zakat donation features in collaboration with Neo Bank to expand service reach.

Mobile Developer

PT. Maybank Indonesia Finance - Jakarta, Indonesia

March 2020 – September 2021

Tech Stack: React Native, JavaScript, Redux

- Revamped the company's mobile app, raising its rating from 3.0 to 4.5 stars and increasing active users by 10,000+.
- Reduced operational costs by 70% and cut user wait times by 50% through feature optimization and process automation.
- Designed a component-based system that reduced development time by 30%.
- Improved UI/UX with Figma, boosting engagement by 30% and reducing negative feedback by 40%.
- Mentored two junior developers to maintain code quality and project alignment.

EDUCATION

BINA NUSANTARA UNIVERSITY

Bachelor of Computer Science (2016 – 2020)

GPA: 3.56/4.00

SKILLS

Technical Skills:

Frontend: Next.js, React.js, TypeScript, JavaScript (ES6+), Redux, Zustand, React Query, Zod, Tailwind CSS, ShadCN UI

Mobile: React Native (iOS & Android), Ionic, Angular

UI/UX: Figma, Adobe XD, Photoshop, Illustrator, Responsive Design

Backend/API: REST API, GraphQL, Axios, Firebase, Express.js, Node.js

Tools: Git, GitHub, GitLab, Bitbucket, Vercel, Jenkins (basic), Docker (basic), CI/CD

Learning: Flutter, Vue.js, Nuxt.js, Golang

PROJECTS

Digica Academy LMS - [Github](#) | [Live Demo](#)

Tech Stack: Next.js, TypeScript, Tailwind CSS, ShadCN UI

- Developed the frontend of a **Learning Management System (LMS)** for Digica Academy, an online learning programs
- Built reusable and modular UI components for scalable development
- Implemented client-side data handling using mock data and local storage
- Designed responsive and user-friendly interfaces to enhance the learning experience

Ulaman Bali Hotel Website - [Github](#) | [Live Demo](#)

Tech Stack: Next.js, TypeScript, Tailwind CSS, Framer Motion

- Developed a modern, responsive landing page inspired by Ulaman Eco Resort.
- Focused on elegant UI, smooth animations, and optimized performance with reusable components and clean architecture.

Flip.id Project - [Github](#)

Tech Stack: React Native, Redux, Axios, REST API

- Built a functional prototype replicating **Flip.id** homepage with search, sorting, and data handling features.
- Focused on clean UI and modular component design for maintainability.

ORGANIZATION

BINUS Mandarin Club

- **Project Manager** - Successfully managed a **27.14% surplus** in budget allocation (*Serah Terima Jabatan XVIII, December 2018*).
- **Vice Coordinator 3D** - Directed the design team to create promotional materials, increasing event participation and audience engagement (*National Mandarin Competition VI, October 2017*).
