## SUMMARY

**Senior Frontend Engineer** with **6+ years** building scalable web and mobile products with **React, React Native, and Next.js**. Experienced delivering **high-traffic and realtime interfaces** across live data, video-call, and product dashboard platforms.

Owns features end-to-end, from **UI architecture and performance** to collaboration with product, design, and backend with a focus on maintainable systems and clear user experience.

## EXPERIENCE

### **Senior Frontend Engineer**

**PT. Namea Kreasi Teknologi - Jakarta, Indonesia**

*August 2023 - Present*

**Tech Stack:** Next.js, React Native, TypeScript, TanStack Query, Redux, Axios, Zustand, ShadCN UI, Tailwind CSS, REST API, WebSockets, Turborepo, NextAuth, Agora RTC, Firebase

- Led frontend delivery high-traffic products with a team of 2 engineers, spanning live sports, short-video streaming, realtime video calling, and internal operations dashboards on web and mobile.
- Built and optimized reusable web and mobile components, improving page load performance by up to 60%.
- Implemented modular frontend architecture and scalable UI patterns across multiple products, including shared UI and authentication foundations for multi-app dashboard delivery.
- Built realtime video-call product flows for talent/host and caller experiences using Agora RTC/Chat, WebSocket signaling, and Firebase, covering KYC onboarding, live sessions, chat, and earnings/withdrawal surfaces.
- Conducted code reviews and mentored 2 junior engineers, helping raise code quality and keep frontend delivery aligned across projects.
- Collaborated with design and backend teams to maintain consistent UX and performance standards across web and mobile products.

### **Mobile Developer**

**PT. Elektronik Distribusi Otomatisasi Terkemuka (eDOT) - Bandung, Indonesia**

*July 2022 - August 2023*

**Tech Stack:** React Native, TypeScript, Redux, GraphQL, Axios

- Contributed to the development of eDOT SuperApp, a multi-service platform combining eChat (messaging), eShop (social-commerce), and various digital services.
- Enabled both business and personal users to create and manage stores within the eShop module, supporting a growing in-app seller ecosystem.
- Implemented Single Sign-On (SSO) authentication and centralized account management for seamless access across services.
- Integrated social networking features including posting, following, and media sharing through third-party APIs.
- Optimized Redux and GraphQL query handling, reducing average load time by 30% and improving responsiveness.
- Increased app stability by 35% through structured error handling and runtime monitoring.

### **Mobile Developer**

**PT. Una Darma Indonesia - Jakarta, Indonesia**

*November 2021 - July 2022*

**Tech Stack:** Ionic, Angular, REST API

- Built and deployed crowdfunding and peer-to-peer insurance platforms for SMEs, including *Asurisan Dewata* (localized for Bali) and *Asurisan Pro* (serving 4,000+ SMEs nationwide).
- Integrated Zakat donation features in collaboration with Neo Bank to expand service reach.

## Mobile Developer

**PT. Maybank Indonesia Finance - Jakarta, Indonesia**

*March 2020 – September 2021*

**Tech Stack:** React Native, JavaScript, Redux

- Revamped the company's mobile app, raising its rating from 3.0 to 4.5 stars and increasing active users by 10,000+.
- Reduced operational costs by 70% and cut user wait times by 50% through feature optimization and process automation.
- Designed a component-based system that reduced development time by 30%.
- Improved UI/UX with Figma, boosting engagement by 30% and reducing negative feedback by 40%.
- Mentored two junior developers to maintain code quality and project alignment.
